Feeding requirements

Feeding requirements vary depending on the climate, temperature, activity level, age and breed of your canine or feline companion. The feeding guidelines shown are approximate. ALWAYS feed an amount to maintain OPTIMAL weight. Always provide fresh food and water daily. Store remaining food in a dry, cool area.

Changing Diets Abrupt changes in your pet's diet may cause intestinal irritation and/or soft stools. Pets First recommends a gradual change from the old diet to the new **Earth Options by Pets First** diet. This can easily be accomplished without pet discomfort over a two to five day period. In rare instances up to ten days may be required.
